

Z8 from JURA
A world first: One-touch lungo for a light, aromatic, long coffee

Z8

Technical overview

JURA standard features

Variable brewing chamber, from 5 g to 16 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Second, ground coffee	■
Hot water function	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma ^{G3} grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	2
Intelligent preheating	■
Integrated rinsing, cleaning and descaling programme	■
Integrated milk system rinsing and cleaning programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

Specific advantages

One-Touch function	■
Pulse Extraction Process (P.E.P.®)	■
Intelligent water system (I.W.S.®) with CLARIS Smart filter cartridge	■
Automatic switchover from milk to milk foam	■
TFT colour display	4.3"
Sensitive-Touchscreen Technology®	■
Rotary Switch	■
Wireless ready	■
Compatible with the JURA Coffee App	■
Power hot water system (3 temperature levels)	■
Recognition for second, ground coffee	■
Active bean monitoring	■
Monitored drip tray	■
Maintenance status display	■

Settings and programming options

Programmable amount of water	■
Amount of water adjustable for each preparation	■
Programmable coffee strength	10 levels
Coffee strength adjustable for each preparation	■
Store, copy and personalise products	■
Programmable milk temperature	10 levels
Programmable milk foam temperature	10 levels
Programmable brewing temperature	3 levels
Programmable hot water temperature	3 levels
Programmable switch-off time	■

Design and materials

Alu Frame Design® 3 mm aluminium front	■
White cup illumination	■
Amber cup illumination	■
Water tank illumination blue	■
Sound design	■

Also supplied as standard

Container for milk system cleaning	■
------------------------------------	---

In figures

Width-adjustable coffee spout	21 – 50 mm
Height-adjustable dual spout (milk / coffee)	80 – 153 mm
Height-adjustable hot-water spout	80 – 153 mm
Water tank fill volume	2.4 l
Coffee grounds container (servings)	ca. 20
Bean container with aroma preservation cover	280 g
Cable length	ca. 1.1 m
Voltage	230 V ~
Power	2450 W
Energy consumption	25 Wh
Energy consumption in energy-saving mode (E.S.M.®)	8 Wh
Standby power	≤ 0,01W
Weight	13.4 kg
Dimensions (W × H × D)	32 × 38 × 45 cm
Article number/colour	15063 / Aluminium

Vorzüge auf einen Blick

- One-touch lungo function for light, aromatic, long specialities
- 4.3", high-resolution touchscreen colour display with sophisticated operating concept for intuitive navigation
- Ultimate coffee quality thanks to the Aroma^{G3} grinder and Pulse Extraction Process (P.E.P.®)
- Parallel preparation of coffee and milk for a perfect café au lait result

Z8 from JURA

A world first: One-touch lungo for a light, aromatic, long coffee

The Z8 from JURA boasts an unbeatable standard of coffee. For long coffees, the world's first automatic speciality coffee machine for the home with one-touch lungo function uses a special preparation method to additionally combine the coffee with hot water during the extraction process, resulting in full-bodied, deliciously light specialities. The Pulse Extraction Process (P.E.P.®) facilitates the superb development of flavour for ristretto and espresso, with even trend specialities always a success thanks to fine foam technology and the automatic switching from milk to milk foam. Operation and the selection of one of the 21 different specialities takes place intuitively, thanks to self-explanatory graphics on a high-resolution 4.3" touchscreen colour display. If desired, Smart Connect even enables the machine to be controlled via the free JURA Coffee App. And thanks to RFID technology, the CLARIS water filter is detected automatically.

Three specialities at the touch of a button

Inspired by know-how from the world's best baristas, the Z8 turns enjoying a coffee into a long-lasting pleasure. For the caffè Barista, the lungo Barista and the pot of coffee, it uses a special preparation method to also combine the coffee with hot water during the extraction process to produce full-bodied, delicate, deliciously long specialities. Creating the perfect treat for the body and soul.

Big Screen, Big Scene

With a precise, 4.3", high-resolution touchscreen colour display, JURA is laying down a marker for coffee machine user interfaces. Just as impressive as its imposing screen is the completely new operating concept. It sets itself apart thanks to its clear layout and simplicity in keeping with the times. The touchscreen literally puts all your favourite coffees at your fingertips. By touching, swiping and selecting, you can individually program, name and copy your specialities and move them around on the display. Equipped with Smart Connect, the Z8 can also be controlled via a free app from JURA.

P.E.P.® and fine foam technology for unrivalled coffee quality

The latest flagship in JURA's Z line is a master in the art of perfect coffee preparation. State-of-the-art Swiss technologies ensure top barista-style quality. The Aroma^{G3} grinder is now twice as fast, yet preserves all the delicious aroma of the coffee beans. The Pulse Extraction Process (P.E.P.®) ensures the optimum extraction time by pulsing the hot water through the ground coffee at the exact frequency for the amount of water to create a short speciality, such as a ristretto or espresso. Even on-trend creations with milk and milk foam are exceptionally easy to produce by simply touching the display. The machine switches from milk to milk foam fully automatically. The milk temperature can be varied to suit your own taste and selected separately for each speciality.

An unprecedented range of specialities

Coffee classics – characteristically full-bodied and aromatic. Trend specialities topped with light and airy milk foam, imaginative, delicious. The Z8 makes a statement for variety and choice. 16 different specialities can be selected simply by touching the start screen, and a total of 21 beverages are available via the Rotary Selection. What's more, there's still plenty of scope for coming up with personalised creations and names – let coffee fire the imagination. Two pumps and two heating systems allow the coffee and milk to be prepared in parallel, bringing a rediscovered classic, the café au lait, to the cup to perfection. The Z8 also fully satisfies the high demands of tea lovers by providing the ideal water temperatures for green and black tea.
